

Pretty cool guy — Lurkmore

Pretty cool guy — мем борды /b/ **форчана** ещё тех времен, когда последний **был тортом**. Один из немногих действительно смешных не форсед-мемов, созданных школотой.

Появление

Вечером 2 декабря 2007 года от рождества Христова перед **битардами** предстал тред, посвященный главному герою **yoba**-игры Halo 3, в котором автор выражал свою искреннюю любовь и обожание последнему. Сам текст выглядел так:

Тот самый тред

«I think Halo is a pretty cool guy. eh kills aleins and doesnt afraid of anything. »

— Анонимус

Летающего на крыльях ночи говна в автора замечено не было по той простой причине, что и **Grammar Nazi**, и **просто фанаты игры** упали без сознания первыми.

Тем не менее, уже к следующему утру тред оброс разнообразной копипастой, и лулзы потекли рекой, **Epic Win** был засчитан безоговорочно. Впрочем, как и все хорошее, в настоящее время мем уже морально устарел и вызовет улыбку разве что у человека с ним не встречавшегося. Но ересью будет не отметить, что из-за зашкаливающих показателей на вин-о-детекторе этот процесс прошел значительно быстрее обычного, что одновременно удручает и заставляет верить в то, что не перевелись ещё на этом глобусе по-настоящему смешные вещи. God bless 4chan!

I think **Grammar Reich** is a pretty cool guy. eh shoots grammar untermensch and doesnt afraid of anything

Как милосердно поясняет нам фюрер, автор допускает грубейшие лексические и грамматические ошибки, которые так сильно бросаются в глаза, что и пояснение к оным не требуется. Ну разве что Halo это не имя персонажа, а название игры. И соответственно в макро на место «Halo» ставится не непосредственно ФИО некоего персонажа, а название того, благодаря чему он стал **героем**. Впрочем, лучше один раз прочитать:

- I think **Jews** is a pretty cool guy. eh did **WTC** and doesnt afraid of anything.

А вы думали, что хороший годный винрар обойдется без графической адаптации? Вот уж йух. В скором времени после успеха копипастинга появилось именно то, что вы подумали.

По первой же из фотожаб были установлены стандарты написания и, соответственно, [exploitable](#) edition. Изначальный канон о невозможности упоминания имени героя претерпел изменения в качестве снятия оногo. Само же имя принято писать крупным красным шрифтом.
